AKA THE DEZ SAYS

DISCOVER THE TRUTH:

MASONRY, OCCULTISM, NAZI'S, & THE MOON LANDING

SCOPE/OBJECTIVE

I. WITHOUT TRANSPARENCY & W/ LITTLE TRUST HOW CAN WE TRUST WHAT WE ARE TOLD ABOUT THE US'S INVOLVEMENT IN SPACE AFFAIRS?

2. WHY THE SIGNIFICANT INFLUENCE OF THREE GROUPS WITHIN THE US SPACE PROGRAMS MATTER, & HOW THEIR BELIEFS ARE NECESSARY TO UNDERSTAND.

3. UNDERSTAND THAT THESE GROUPS (NAZI, MASONS, AND OCCULTIST) HOLD DEEP BELIEFS IN THINGS YOU MAY TAKE SERIOUSLY. THATS IRRELEVANT. YOU MUST KNOW THAT THEY DID TAKE IT EXTREMELY SERIOUSLY. CHIEFLY: ANCIENT POWERS/GODS, MAGIC, ALCHEMY, RITUALS, SACRIFICES, SECRET RITES, ASTROLOGY AND NUMEROLOGY.

4. CONSPIRACIES ARE MOSTLY EMPLOYED & BELIEVED BY GOVERNMENTS, & SECRET SOCIETIES. THE BEST WAY TO DISCOVER THEIR INTENTION IS TO THINK AS THEY DO. "CONSPIRACY THEORIST" IS AN INTENTIONALLY DEMONIZED TERM TO DISSUADE INTEREST, AND TO REMOVE CREDIBILITY & USUALLY DONE BY THOSE WHO FEAR BEING EXPOSED.

5. I, PERSONALLY BELIEVE IN SYNCHRONICITIES, BLESSINGS, GOD- GIVEN KARMA, & I BELIEVE EVIL & GOOD EXIST. I BELIEVE IN 'A' COINCIDENCE- NOT COINCIDENCES.

Space Shuttle Challenger disaster

Challenger's solid rocket boosters fly uncontrollably after the breakup of the external tank separated them from the shuttle stack. The remains of the orbiter and tank leave thin white contrails as they fall towards the Atlantic Ocean.

Cause

O-ring seal failure in right SRB due to cold weather and wind shears

Outcome

· Loss of Challenger and crew

- · Teacher in Space Project and subsequent civilian shuttle spaceflights cancelled
- · Shuttle fleet grounded for implementation of safety measures
- · Construction of replacement orbiter

Decision to launch [edit]

The air temperature on January 28 was predicted to be a record-low for a Space Shuttle launch. [4]: 47,101 The air temperature was forecast to drop to 18 °F (-8 °C) overnight

Why eyewitnesses fail

BOTH WERE SHUTTLE FLIGHTS WITH A NUMBER OF **UNSEASONED ASTRONAUTS. BOTH STARTED WITH THE** LETTER 'C.'

LIKE 9/II, AS SHOWN IN THE DAILY NEWS DATED FEB 02 2003, THE **POWERS THAT BE HAD ALREADY** MADE CONCLUSIONS. ONE DAY AFTER THE EVENT W/ LITTLE TO NO EVIDENCE AS TO WHAT HAPPENED.

Quick background,

I've big on space, I am an amateur astronomer & telescope builder I took Astronaut, Chris Hadfield's Astronautics master class, & HarvardX's Einstein Evolution course on Quantum Physics and Relativity.

I've filed multiple FOIA requests to NASA My Grandmother worked at NASA during the height of the American Space-Race in the JPL's Deep Space Network Division through the 1970's

I wasn't alive for the Challenger disaster in 86'. I was however alive for the Columbia disaster in 03

I would have been nearly 13 years old. My memory has always been pretty good. I mention this because I remember 9/11 and notably remember after that is when I started to pay attention to the news. You would think disasters like Columbia would have been remembered better, or even at all.

WAS THIS A MANDELA EFFECT?

My father vivdly remembers his mother's time working at Nasa. He remembers the Challenger Disaster too. But, Like myself, he has **no** recollection of the Columbia incident.

When I asked a community online, a majority either couldnt recall a second NASA air disaster, or they confused it with the Challenger. These were people of various ages, locations, and although they too were American's most struggled to recall the histoic incident.

What happened? We may never know. But it is worth noting that the Columbia disaster happened 1yr, 4 months and 21 days after September 11th.

1+4+2+1=8

We in the US still hold deep feelings about 9/11 and the Challenger but not The Columbia. Why? With it being so close to 9/11 the lack of impact on our memory didn't make much sense

WHERE DID THE MAGICIANS, MASONS AND NAZI'S GATHER THESE BELIEFS?

Sirius was worshiped, too, as Sihor, the Nile Star, and, even more commonly, as Sothi and Sothis, its popular Graeco-Egyptian name, the Brightly Radiating One, the Fair Star of the Waters; but in the vernacular was Sept,

though it should be noted that the word Isis at times also indicated anything luminous to the eastward heralding sunrise. Later it was **Osiris**, brother and husband of Isis, but this word also was applied to any celestial body becoming invisible by its setting. Thus its titles noticeably changed

Its risings and settings were regularly tabulated in Chaldaea about 300 B. C., and Oppert is reported to have recently said that the Babylonian astronomers could not have known certain astronomical periods, which as a matter of fact they did know, if they had not observed Sirius from the island of Zylos in the Persian Gulf on Thursday, the 29th of April, 11542 B. C.!

It is the only star known to us with absolute certitude in the Egyptian records — its hieroglyph, a dog, often appearing on the monuments and temple walls throughout the Nile country. Its worship, chiefly in the north, perhaps, did not commence till about 3285 B. C., when its heliacal rising at the summer solstice marked Egypt's New Year and the beginning of the inundation, although precession has now carried this rising to the 10th of

ASTRONAUT COMES FROM ARGO NAUT. ARGO MEANING A SHIP. WE DONT CALL THEM SPACE PLANES. WE SAY SPACE "SHIPS" WHEN WE PARK A SHIP WE TIE IT TO A DOCK, AND WITH SPACE SHIPS WE CALL IT "DOCKING" LIKE SAILORS AT SEA, ASTRONAUTS CHECK THEIR BEARINGS TO NAVIGATE. THEY REFER TO SPACES INSIDE THE "SHIP" THE SAME AS IN A BOAT; THE HULL, HATCHES, GALLEY. ROCKETSHIPS USE PROPULSION TO NAVIGATE, SHIPS AT SEA USE PROPELLERS. WE WE REACH A LAND BODY BY SEA WE SAY THE SHIP MADE A "LANDING" SAME IN SPACE WHEN WE WENT TO THE MOON, WE SAID MOON "LANDING" WHEN A MISTAKE IS MADE IN SPACE, THEY SAY "SCREWED THE POOCH" BECAUSE ITS A DISHONOR TO THE POOCH/DOG AKA SIRIUS. Cosmonaut - The Russian equivalent of an astronaut, with 'cosmos' referring to the universe and 'naut' meaning traveler. In the movie *Sputnik*, Oksana Akinshina plays a young doctor examining a cosmonaut with an alien parasite.

Astronaut - NASA came up with the word for its pilots. 'Astro' refers to space travelers or star travelers. The word 'naut' comes from the Greek word for sailor, later generalized to mean traveler.

Orion

conspicuous constellation containing seven bright starts in a distinctive pattern, late 14c., *orioun*, ultimately from Greek *Oriōn*, *Oariōn*, name of a giant hunter in Greek mythology, loved by Aurora, slain by Artemis, a name of unknown origin, though some speculate on Akkadian *Uru-anna* "the Light of Heaven."

pattern is represented in many cultures as a giant (such as Old Irish *Caomai* "the Armed King," Old Norse *Orwandil*, Old Saxon *Ebuðrung*). A Mesopotamian text from 1700 B.C.E. calls it *The True Shepherd of Anu*. The *Orionid* meteors, which appear to radiate from the constellation, are

influence (n.)

late 14c., an astrological term, "streaming ethereal power from the stars when in certain positions, acting upon character or destiny of men," from Old French *influence* "emanation from the stars that acts upon one's character and destiny" (13c.), also "a flow of water, a flowing in," from Medieval Latin *influentia* "a flowing in" (also used in the astrological sense), from Latin *influentem* (nominative *influens*), present participle of *influere* "to flow into, stream in, pour in," from *in-* "into, in, on, upon" (from PIE root *en "in") + *fluere* "to flow" (see **fluent**).

The range of senses in Middle English was non-personal, in reference to any outflowing of energy that produces effect, of fluid or vaporous substance as well as immaterial or unobservable forces. Meaning "exertion of unseen influence by persons" is from 1580s (a sense already in Medieval Latin, for instance Aquinas); meaning "capacity for producing effects by insensible or invisible means" is from 1650s. *Under the influence* (of alcohol, etc.) "drunk" first attested 1866.

History and Mythology

The name "Sirius" comes from the Greek word for "searing" or "scorching". Sirius is also known as the "Dog Star", belonging to the constellation Canis Major, the Great Dog. In the northern hemisphere, Sirius first peeks above the eastern horizon on late summer mornings just before sunrise. For this reason, the long, hot days of summer are often called "dog days".

In many cultures, Sirius was used as a time marker for harvesting and celebration. It was an important marker in the ancient Egyptian calendar. The Egyptians knew that when Sirius rose just before dawn, the Nile was about to begin its yearly flood. (This is no longer true, however, because precession - the 26,000-year wobble of the Earth's axis - has shifted the start of the seasons relative to the positions of the "fixed" stars.)

Aleister Crowley in Egypt

inscription in subterranean tomb under the great pyramid with words "apollo" and "high priestess" aka ISIS, dated march 12th 1905
3-3-6 or 6-6

Many believe was written by the beast himself as he was living in cairo around that time.

He even spent the night in the kings chamber of the great pyramid.

Crowley studied ceremonial magic for many years, but he felt he had not found the success he was searching for. He and his wife Rose travelled to Egypt where they spent a night in the King's Chamber of the Great Pyramid. Rose became clairaudient and began to repeat the phrase "They are waiting for you." Crowley was bemused as Rose was not known for her interest in magic or occultism, and hitherto had shown no signs of psychic ability. But she was insistent, and perhaps more to humour his young wife Crowley invoked the god Thoth and asked a number of test questions.

Surprisingly, the answers were way beyond his wife's understanding and showed a level of sophistication that piqued Crowley's interest, to say the least. The final test involved an image of Horus at a local museum. He asked the communicating being to identify it. Rose very quickly identified various images of Horus, but it was the stele of Ankh-ef-en-Khonsu that she was most drawn to, an artefact known as inventory number 666 (Crowley's personal number as 'The Master Therion'). The being not only identified Horus on the stele but caused Rose to explain that the 'intelligence' attempting to communicate was not Horus himself but his representative Aiwazz.

On 8 April 1904, between noon and early in the morning, Crowley experienced a dark and overwhelming presence behind him. It communicated through him a bit like automatic writing and dictated over three days what became known as Liber AL vel Legis or The Book of the Law.

Alpha Phoenicis - Ankaa, Nair al-Zaurak

At magnitude 2.39, Alpha Phoenicis is the brightest star in the constellation Phoenix, a modern constellation named by southern hemisphere explorers and first noted in Bayer's Uranometria. The star has the traditional name Ankaa, a late application of the Arabic word for "phoenix". However, the stars in the area were considered by the medieval Arabs to be a dhow, or small boat, and so another popular name for the star is Nair al-Zaurak, meaning "the bright one of the boat" in Arabic.

Zeta Puppis - Naos, Suhail Hadar

Zeta Puppis was originally the ζ star of Argo Navis, the ship of Jason's Argonauts. After this huge constellation was broken up in the 19th century, the star became the brightest in Puppis, the Stern, at magnitude 2.25. Zeta Puppis, whose Greek name Naos means "ship", is also known as Suhail Hadar (the "bright star of the ground") in Arabic, since the star appears nearly on the horizon as seen from the latitude of the Arabian peninsula.

Eta Canis Majoris - Aludra

The star Eta Canis Majoris, at magnitude 2.45, ranks fifth brightest in Canis Major, the Larger Dog. Its name, Aludra, originates from the Arabic "al-aora", which means "the virgin." It alludes to the group of four stars of the Dog's lower portions that ancient Arabic astronomers called "the Virgins," and also includes Adhara and Wezen. Named after the star Aludra, the USS Aludra (AK-72) was a US Navy cargo ship in World War II.

Carina - The Keel

Carina is a large constellation visible to southern hemisphere observers most of the year. This constellation is far to the south, and at mid-northern latitudes, it is only partially visible along the southern horizon. The Milky Way passes through Carina, which contains many bright open clusters and nebulae. In some ways, Carina is the Orion of the southern skies.

History and Mythology"

"Carina" is Latin for "keel of a ship." Carina is one of three pieces of the original Argo Navis - once the
